

Hewn

Isaiah 51:1-6

Mathew 16:13-20

What temperature do you enjoy most? Cold? Hot? Somewhere in between?

Re-read the Scripture together as a group.

JD said that Jesus was checking “the temperature” of the crowds. He asks His disciples what the people are saying about Him. He knows what people are saying... but He asks anyway. He asks, “Who do the people say I am?”

- Who do you say He is?
- Why?

God took Adam through the entirety of creation to realize he needed a mate. And because he couldn't find one; God created one. Jesus also took the disciples through all the wrong answers to get to the correct one. “The Son of the Living God.”

- When in your life have you gone through the wrong paths to get to the right one?
- What about your walk with Christ... when have you been going through the wrong ideas to get to the truth about Him?

As Norte Dame is being rebuilt. It makes us think of what God is doing with us in our lives. He is carving and shaping us like he always done. Just like Abraham and Sarah and Peter were shaped so are we.

- How is God shaping you?
- Is it an easy time?

How will this sermon change the way you live in the days to come?
